It's far more than a exhaled breath

Ketoscan Mini

measures a concentration of acetone in your exhaled breath when your body fat is burning. So it provides you how much of true body fat is burning now and enables you to establish an affordable food and exercise plan.

Non-invasive

Do not hurt yourself anymore to see a blood. Just breath out smoothly.

Handy & Portable

Bring this pocket-sized device wherever you go.

Hygienic use

Replaceable disposable mouthpiece whenever you testing.

Mobile app. connectable

Track and monitor your data history and make a plan of exercise intensity

Ketoscan mini will be useful for

- LCHF / Ketogenic / Paleo diet
- Low calorie diet
- Any type of weight loss exercise or program
- Medical treatment by Ketogenic food therapy
